

WHITEPAPER

The Web 3 Way To Help Africa

Kilimanjaro is BEP20 token that allows you to become an investor who makes the world a better place.

Invest in Kili tokens to help solving hunger and health problems in Africa.

THE PROBLEM

21% of people in Africa suffered from hunger in 2020, a total of **282 million people**[1]. Global COVID-19 pandemic, war in Ukraine, problems with food export and recession are all factors that threaten to make that problem even larger in the coming years.

Without access to medicines, Africans are susceptible to the three big killer diseases on the continent: malaria, tuberculosis and HIV/AIDS. Globally, **50% of children under five** who die of pneumonia, diarrhoea, measles, HIV, tuberculosis and malaria are in Africa, according to the World Health Organisation (WHO)[2].

Africa needs help!

HOW KILIMANJARO HELPS

We invented **Kilimanjaro** in order to create a sustainable source of funding necessary to support organisations that are providing the biggest help to those in need in Africa.

Kilimanjaro has several systems built in that ensure two things happening - one is **providing a sustainable source of funding** for our partner charity foundations that are the most credible ones in the world, the other is **stimulating coin price going up**, which will keep attracting investors and donors.

3% of every transaction of Kili coin goes to charity.

We are stimulating HODL-ing, which raises Kili coin value, which is good both for the charity beneficiaries and the investors.

Kili has a deflationary system built in - **3%** of a transaction value is burned during each transaction, which protects liquidity and boosts coin prices even more.

HODL-ing (and Kili price increase) is also stimulated by **4%** percent of each transaction being redistributed to the holders proportional to the tokens they hold.

TOKENOMICS

Symbol	Kili
Blockchain	Binance Smart Chain
Token Standard	BEP20
Total Supply	21,000,000,000

TOKEN ALLOCATION

Kili tokens are allocated as follows:

- **50% Available supply**
- **30% Locked Pool** - Funds are locked for 21 years.
- **10% Charity Wallet** - 1% of these funds will be sent to charities each quarter in the next 25 years.
- **10% Team** - development and marketing purposes

INCENTIVES

Kilimanjaro has several systems built in to stimulate coin price going up, which will keep attracting investors and donors.

- **30%** Presale Discount
- **30%** Burned After Presale
- **10%** Digital Tax
 - **3%** of each transaction goes to charity
 - **3%** of each transaction is burned
 - **4%** of each transaction is distributed to investors

ROADMAP

Kilimanjaro roadmap is a summary of Kilimanjaro development, partnerships, promotion, and donations to our beneficiaries.

Our vision is centred around providing as much as possible long-term help to solving hunger and health problems in Africa so our roadmap will represent all of our major future goals and efforts to support that vision.

Q4 2022

- Website Development
- Whitepaper Documentation
- Build Phase - Smart Contract
- Deployment Phase - Smart Contract - Testnet
- Audit CoinScope
- Deployment Phase - Smart Contract Deployment - Mainnet
- Initiate and Promote Telegram Community
- PR Marketing
- Pre-Launch Marketing
- ILO on Unicrypt
- PancakeSwap Listing
- CoinMarketCap & CoinGecko Listing

Q1 2023

- 1,000 Token Holders
- Dextools & Poocoin Banner Ads
- YouTube Influencers Marketing
- Voice AMA Tour
- Partnerships with celebrities, KOL, organizations
- Certik Audit Application
- Airdrop Campaign

Q2 2023

- 5,000 Token Holders
- \$100,000 donated
- More Partnerships
- Expand Core Team

Q3 2023

- Cross Chain Bridge to Ethereum network
- Smart Contract v2 Deployment
- Million dollars donated
